Rep Cheney

OCA 3560/88

24 October 1988

Memorandum for:

DD/House Affairs

STAT

STAT

Attached is the information requested by Representative Cheney on Soviet economic and military support to client states facing insurgencies.

As the attached note indicates we have aggregated the military and economic data to obtain an unclassified estimate and is rounded throughout the process. With luck this will satisfy Representative Cheney, *but if not*

give us a call.

MEMORANDUM FOR D. CHANEY

The attached table responds to your request for information on Soviet economic and military support to client states facing insurgencies. It was necessary to aggregate the economic and military data to obtain an "Unclassified" estimate. In aggregate, we suggest that you use the estimate of \$9 billion of Soviet economic and military deliveries to these states in 1987. The table provides the individual estimates that went into the aggregate figure. Unfortunately, we do not have data on aid to the PLO.

**USSR: Economic and Military Aid Deliveries
to Client States Facing Insurgencies, 1987**

Afghanistan	\$1.5 - 2 billion
Angola	\$1 - 1.5 billion
Ethiopia	about \$1 billion
Indochina	about \$4 billion
Mozambique	\$100 - 200 million
Nicaragua	about \$900 million

NOTE: The figures above represent the total value of economic and military goods and services actually delivered by the USSR in 1987 under loan and grant terms. Indochina includes Cambodia, Laos, and Vietnam.
